Outline of presentation

- Objectives of the project
- Target Groups and Stakeholders
- THE LINK OF K-FORCE PROJECT WITH BRIGAID

Cooperation

Wider objective:

To improve regional resilience to hazards and capability for regional cooperation in risk prevention and response and to ensure national professional resources and regional capacities in order to build regional-based disaster preparedness and a culture of safety and resilience at all levels according to EU Integration Strategies and National relevant strategies.

Specific project objectives:

- **SO1.** Modernization of Disaster Risk Management and Fire Safety Engineering master study programme and development and implementation of new Master programmes/modules in WBC partners HEIs, according to regional needs and contemporary EU trends.
- **SO2.** Development and implementation of Disaster Risk Management and Fire Safety Engineering Doctoral study programme in accordance to available resources, regional needs and European partners' expertize, in aim to ensure regional capacities and sustainable education and research in the field.
- **SO3.** Continuous professional development of employees in DRM&FSE sector in WBC through creation and implementation of certified LLL courses for practitioners.
- **SO4.** To improve cooperation between project partners in order to modernize teaching and training process on novel technical and technological solutions, exploiting the ICT application.

The activities performed on time:

- ✓ Analyzing the NQF and EQF and existing DRM&FSE MPs: In January 2017 (WP 1.1 + WP 1.2)
- ✓ Market research March and April of 2017. (WP 1.2)
- ✓ Master Curricula and Syllabus preparation –June 2017. (WP 1.3, WP 2.2)
- ✓ Master programme preparation and application for approval- December 2017. (WP 4.1)
- ✓ Financial Resilience Book preliminary work–November 2017 (WP 3)
- ✓ Teaching visit in Novi-Sad University –December 2017. (WP 4.4)
- ✓ Coordinate and participate in all dissemination activities: November-December 2017. (WP 8.1)
- ✓ Novi Sad Conference participation –14-15 September 2017. (WP 8.5)
- ✓ Expenditure report. -September 2017 (WP 9).

Target Groups

- Students on MPs and PhD studies educated within an interdisciplinary and problemsolving framework
- Implemented MPs enable regional/international mobility of WBC students and teachers and their horizon broadening in this specific field;
- Students on other HEIs study programmes basic/improved knowledge of DRM&FSE issues, consequently resulting in raised awareness among student population;
- Teaching staff
- HEIs' laboratory technicians through access to new laboratory equipment, methodologies and procedures;
- HEIs' non-teaching staff through expanding their expertise in supporting EU project;

Stakeholders on regional/national level

- The educational institutions in WB countries not included in this project will be reached by dissemination actions: WB HEIs staff's expand horizons in advanced teaching methodology and DRM&FSE issues.
- Public bodies and administration in charge for civil protection will improve qualification structure and better act as liaison between the emergency sector and scientific and education institutions as well as liaison between educational institutions and stakeholders from the emergency sector.
- Employees in various industrial sectors via an open access to K-FORCE Online Library, ICT portal and LLL courses database, through which they can gain knowledge on various DRM&FSE issues, thus raising their awareness about fires and disasters.
- -Other project end users e.g. employees in various public/industrial sectors, unemployed persons interested in a retraining chance, will be reached through dissemination events, K-FORCE Web portal, Flexible learning ITC platform, social networks and media reports.
- Wider public open access to information compiled within this project.

The link of K-Force with BRIGAID

improvement of future development of the course and the master program RESEARCH,
INNOVATION AND
STUDY TO BE
LINKED TOGETHER
AND TO BE PART OF
THE CURRICULAS;

COOPERATION K-FORCE - BRIGAID

Students needs to search for giving results
4 Hotspots information

Then come the analyzation of:

PESTEL ANALYSIS
DISASTER RISK ASSESSMENT FOR THE AREA
